nellore, Andhra Pradesh

Career Objective

Aspiring to leverage my technical expertise in embedded systems within a forward-thinking organization. With a solid foundation in programming and hardware, I am driven to support innovative solutions, continually expand my skills, and contribute to both personal and organizational success.

Education

- **Bachelor of Technology in Electrical and Electronics Engineering** **2024**
  VEMU Institute Of Technologies chittoor, Andhra Pradesh CGPA: 7.5
- **Diploma Electrical and Electronics Engineering** **2019**
  Dr Y C James YEN Govt Polytechnic, kuppam Andhra Pradesh CGPA: 6.3
- **Secondary Education** **2015**
  N.B.K.R Model High School, Vidyanager CGPA: 7.0

Training Projects

- **Dashboard using CAN Protocol:** Developed vehicle dashboard with LPC2129 microcontrollers to display headlight status, engine temperature, and battery level.
- **Data Acquisition System:** Developed TRC using I2C protocol, temperature sensing, potentiometer using ADC, and LDR percentage using SPI protocol on LPC2129 microcontroller.
- **Student Database in C:** Created a student database program using linked list structure.
- **Home Automation via Bluetooth:** Built system to remotely control home appliances using Bluetooth.
- **Advanced Calculator with UART:** Designed calculator for multi-operation handling via UART communication.
- **Customizable Pre-Processor:** Developed a pre-processor to optimize compilation.
- **Vehicle Control System:** Designed system for enhanced driver safety and convenience.

Professional Training

Vector India Pvt Ltd, Bengaluru **May 2024 - Present**
Hands-on training in embedded systems and practical applications of CAN protocols.

Technical Skills

- **Programming:** C, C++, Data Structures, Embedded C
- **Hardware:** ARM7 (LPC2129)
- **Tools/IDE:** Keil IDE, Ubuntu, Proteus 8, GCC, Flashmagic
- **Protocols:** UART, SPI, I2C, CAN

Soft Skills

- Strong communication and presentation skills
- Quick learner and effective time management
- Team leadership and collaboration

Certifications

- **Certificate of Internship Completion on Embedded Systems:** Emertxe (Duration: 2 months)
- **Certificate of Course Completion on Embedded Systems:** Internshala (Duration: 1 month)
- **Certificate of Course Completion on Python Programming:** Besant Technologies (Duration: 1 month)
- **Certificate of Internship Completion on Artificial Intelligence and Machine Learning:** YBI Foundation (Duration: 2 months)

Achievements

- Got 1st prize in drawing competition on environmental day. In diploma.
